Executive Leadership Committee  
Wednesday, March 2, 2016, 3:00-4:00pm  
HPNP Room 4102  
Summary

Present: Dr. M. Perri, Dr. T. Barnett, Dr. A. Blue, Ms. A. Burne, Dr. K. Dunleavy (for Dr. K. Vandenborne), Dr. S. Hanson, Dr. C. Mainous, Dr. S. Nittrouer, Dr. W. Mann, Dr. P. Qiu, Dr. T. Sabo-Attwood, Dr. G. Smith, and Ms. B. Dermott

1. Action items follow-up  
   a. UF budget model – Dr. Perri reported that there is a scheduled meeting of HSC leadership to discuss the new model.
2. Chair evaluation – Dr. Barnett reported that she received some feedback from the chairs. She noted that the level of confidentiality is a function of the survey mechanism. AP: Dr. Barnett will get more information from Qualtrics about how the company handles confidentiality. Dr. Perri noted that data for the departments of biostatistics and epidemiology will be drawn from the survey faculty have completed on behalf of the College of Medicine. AP: Dr. Barnett will put together a final set of recommendations from faculty council that incorporates feedback from the ELC and the information from Qualtrics.
3. SACS update – Dr. Blue reminded the group that student aid and federal funding are tied to SACs accreditation. She noted that, going forward, programs will be asked to report on how student outcomes data is being utilized to improve program procedures.
4. Administrative update – Dr. Perri provided a report from the Santa Fe Research Consortium meeting he attended. Topics discussed included methodological rigor and reproducibility, rehabilitation research, and TIGRR workshops for developing grant proposals. AP: Dr. Perri will send around the slides. Dr. Perri presented the following updates from the HSC Deans meeting: 1. Science and SciLifeLab prize for young scientists is awarded to four students, who share the $60K prize. Students may submit an essay based on their thesis work. 2. The HSC is moving forward with renovations to the Communicore. 3. A new version of academic analytics is now available. AP: Dr. Perri noted that chairs should check to make sure faculty lists are accurate for their departments and that appropriate reference universities are being used as comparators. Also, chairs should note funding agencies that are not captured. AP: The college will clean-up the data and provide feedback to Marie.
Zeglen. 4. A question was raised regarding random drug testing for students. If this moves forward, a proposal will be circulated for comments. 5. The topic of rehabilitation services in the new hospital towers was also discussed. AP: Dr. Guzick will arrange a meeting to discuss how to leverage PHHP rehab expertise.

5. Announcements – All
   a. Dr. Mainous announced that HSRMP has a faculty candidate coming next week.
   b. Dr. Smith announced that Dr. Kat Ross has been hired jointly by CHP and SBS. Dr. Ross will start in June.
   c. Dr. Qiu announced that a party was held to celebrate Dr. Myron Chang’s retirement.
   d. Dr. Mann announced that a new business manager started in OT.
   e. Dr. Dunleavy announced that the PT department will host the Neuromuscular Plasticity Conference at the end of month.
   f. Dr. Sabo-Attwood announced that EGH has a new business manager and that the YES (young environmental scientist) meeting was held here at UF. Makyba Charles won an award.
   g. Dr. Blue announced that the HSC is submitting a letter of intent to the Robert Wood Johnson Foundation regarding a summer program for underrepresented students.
   h. Dr. Hanson provided a brief report from the rehab meeting she attended. Topics included constraint induced therapy and using biofeedback to regain ability to use joystick.
   i. Dr. Perri reminded the group about the upcoming General Faculty Meeting scheduled for March 9. The agenda includes changes to the university budget model and the impact on teaching metrics, the future of the BSCH department, and chair evaluations.
